RSSD INFOTECH PVT. LTD.
TECHNOLOGY FOR BETTER HEALTHCARE

HOSPITAL MANAGEMENT + PATHOLOGY LIS

Connected hospital and pathology software for better-organised care

One connected system for hospital administration, patient workflows, billing and pathology, so doctors and staff spend less time on paperwork and more time with patients.

OPD · IPD · Billing · Lab · Pharmacy · Reports

- ✓ Cloud & On-Premise
- ✓ Transparent pricing
- ✓ 24/7 Support
- ✓ Made for Indian hospitals

ABOUT RSSD INFOTECH

Technology for better healthcare

RSSD Infotech Pvt. Ltd. builds software that helps hospitals organise information and standardise workflows. We start by understanding your departments, user roles and reporting needs, then configure, train and stay with you after go-live.

Our vision

To help healthcare organisations build more connected, organised and digitally enabled operations through practical software.

Our mission

To deliver configurable hospital and pathology software, make technology accessible through clear deployment options and transparent pricing, and support adoption through planning, training and defined support.

Innovation

Practical technology for real hospital problems.

Quality

Structured deployment and testing.

Trust

Pricing and milestones in writing.

Customer focus

Long-term, honest partnerships.

"Every minute a doctor saves on paperwork is a minute given back to a patient. That is the reason we build this software."

OUR SERVICES

Everything a modern hospital runs on

The core package covers HMS and Pathology. Specialist modules are added when your hospital is ready.

Hospital Management (HMS)
Coordinates administrative and operational work across departments: registration, appointments, OPD, admissions, beds and billing.

OPD & Registration
Structured patient records with unique IDs, appointment templates, visit records and duplicate-check search.

IPD, Beds & Discharge
Admission, ward and bed allocation, transfers and discharge activities recorded in one coordinated flow.

Billing & Finance
Invoices, receipts, advances, approved discounts and financial reports with clear audit of changes.

Pathology LIS
Orders, samples, result entry, verification and branded report generation for your laboratory.

Pharmacy
Medicine masters, stock receipts and issues, batch and expiry tracking, dispensing and returns.

Inventory & Purchase
Purchase requests and orders, supplier records, reorder levels and stock reports.

Radiology / RIS
Radiology orders, scheduling and reporting, with RIS or PACS integration scoped to your systems.

OT & ICU
Operation theatre scheduling and records, ICU and advanced nursing workflows.

Insurance & TPA
Insurance and TPA claim workflows from pre-authorisation to settlement tracking.

HR, Payroll & Attendance
Staff records, payroll and attendance, with device integration where needed.

Management Dashboards
Daily operational measures for administrators, built on the data you choose.

Multi-Branch
Central configuration, reporting and access rules across hospital branches.

Patient Portal & App
Selected digital services for patients, delivered securely.

ABDM / ABHA Integration
Integration with India's Ayushman Bharat Digital Mission, scoped to your requirements.

Custom API & Integrations
Documented APIs and third-party interfaces, tested with your suppliers and IT team.

PATHOLOGY LIS

Accurate results. Faster reports.

- Sample collection, accession IDs and barcode labels
- Configured test masters, units and reference ranges
- Result entry separated from final authorisation
- Branded report templates with PDF delivery
- Turnaround-time reports for the lab

SPECIALTY HOSPITAL SOLUTIONS

Hospitals we serve

Ayurvedic Hospital

Consultations, therapy and Panchakarma scheduling, herbal pharmacy stock and billing.
